INTERACTIVE RESTAURANT SYSTEM

Prepared by: Yoo Guan Hong

ABSTRACT

The body is the actual point of this report. It is divided into few categories. The first category is the objectives. It stated about the all the possible objectives of this project. Before going any further, there will be an introduction. This is where you will read about the basic information of the system such as what the system does, what are the functionally and so on. The 3ed category will be the methods use. This section is followed by a flowchart and a detailed explanation about how this system actually works and how the data flows.
