

# **CEILING FAN CLEANER**

Prepared by: Wong Ke Wei

## **ABSTRACT**

---

The title of my final project is ceiling fan cleaner, the propose that I design the product is use to clean the ceiling fan without using the ladder to climb up to the ceiling fan and clean it, because it is very danger if the user can not balance themselves when washing the ceiling fan they may fall down. But by using the ceiling fan cleaner it is safety and easy to keep the ceiling fan clean and operate in the good condition.
