

# WAKE UP ALARM BED

Prepared by: Ho Jiann Yuan

## ABSTRACT

---

The title of this project is 'Wake Up Alarm Bed'. This project report contains several sections: Introduction; Objectives; Construction and Design; Results and Analysis; Problems Encountered and Solutions; Costs; Conclusion; References and Appendix.

The 'Introduction' will give the reader a brief glimpse of what is this project about. 'Objectives' will discuss about the objectives and aims of doing this project. In the 'Construction and Design' section, details of this project's design and its construction phase will be explained. Questions like 'how does this work?' will be answered in this section. Readers will find out the outcome of this project in the 'Results and Analysis' section.

Problems encountered throughout my project, and solutions to counter these problems are discussed in the 'Problems Encountered and Solutions' section. Meanwhile, the expenditure of this project will be shown in the 'Costs;' section, followed by the 'Conclusion' of this project. References used throughout this project are listed and 'Appendix' will contain extra data and information relevant to this project.
