

# HEAT, SWEAT DISSIPATING CHAIR FOR PEOPLE SEATED FOR LONG DURATION

Prepared by: Goh Wai Lup

## ABSTRACT

---

This specially designed chair should be able to dissipate heat and sweat. With combining the knowledge and information gathered from various resources, I have come out with a interesting innovation. In the latter part, I am going to write about the process taken during the research, problems encountered suggestions, and calculations. There are also pictures or figures included to make the information more interesting to read and also easier to understand.
