

# **AUTOMATIC / REMOTE CONTROL BLINDS**

Prepared by: Poon Tien Aun

## **ABSTRACT**

---

‘Automatic / Remote Control Blinds’ is designed to overcome most of the similar problem which all involves sunlight shining through windows. The design is not too complicated but very functional and useful. Homes and offices are main targets the design is useful to actually; any place with sunlight shining through the window can use this design. The design is not very costly, user-friendly and employing the knowledge of mechanical, electrical and electronic engineering concepts.
