

# DESIGN A REMOTE CONTROLLED RACING CAR

Prepared by: Teng Chong Her

## ABSTRACT

---

As the title implied, the main purpose of the project is to design a remote controller racing car. To allow you to understand about this project in a systematical way, I would like to divide this report into 5 groups. Those 5 groups are introduction, construction, materials used, results & analysis and conclusion. The introduction will consist of 'Definition' the attempts to define & explain main terms my final project. Instead, I will explain the purpose and scope encompassed to provide you a clear picture about this project.
