

PREPARATION BILLS OF QUANTITIES (BQ) AND COSTING FOR FLOORS, WALLS AND CEILINGS FINISHES TO TWO UNITS OF FOUR-STOREY SHOP OFFICE IN MUKIM KUALA DUNGUN, DAERAH DUNGUN, TERENGGANU DARUL IMAN

Prepared by: Pok Jye Hwoi

ABSTRACT

In this project, student has to study into the finishes work of a shop office located at Terengganu. First of all, student research a lot of information about finishes work to make work easy to done. Besides, student is also required to carried out the Bills of Quantities for the finishes since prepare Bills of Quantities is the one of the primary jobs of Quantity Surveyors, so to know the total construction cost for the finishes work. From this project, people can know what finishes work is, how was the process to measure finishes work and the cost estimating for the finishes work. The more simple indication for the Abstract and outcome for my EGK2120 final project can be seen as follows:

Abstract:

- Study about floors, walls and ceilings finishing works
- Do measurement and rate estimation of the finishes project
- Prepare bill of quantities and costing to the finishing works
- Build model of finishing works
- Look into the rules and regulations & aspects of the project
- Presentation of the work done

Outcome:

- ✓ Understand floors, walls and ceilings finishing works
- ✓ Understand the rules and regulations and aspects of the projects
- ✓ Able to do measurement and rate estimation to the projects
- ✓ Able to prepare bills of quantities to the finishing works
- ✓ Able to build model
- ✓ Able to present formally based on the project proposed
