

# A STUDY INTO THE REFURBISHMENT OF AN EXISTING CAFETERIA IN INTI INTERNATIONAL UNIVERSITY

Prepared by: Chan Yin Pang

## ABSTRACT

---

In this project, I have to study into the refurbishment of the existing cafeteria in INTI International University. From the title, we know that every student will go to cafeteria for their meal, so cafeteria is important to us. A cafeteria need to provide food as fast as possible and do not wasting their times.

In addition, students would like to have their meal with a cold environment. Seem like cafeteria is impossible to install air conditional, so that the cafeteria must have a good ventilation to provide cold environment for students.

### Abstract:

- i. To look into the existing cafeteria layout and facilities.
- ii. To purpose additional design and new layout.
- iii. To provide an estimation of cost for refurbishment of cafeteria.
- iv. Prepare taking off and BQ.

### Expected outcome:

- i. Come out with the new design and new costing for the cafeteria in INTI International University.
- ii. Able to prepare Bills of Quantities for this project
