

# PREPARATION OF BILLS OF QUANTITIES AND COSTING FOR WINDOWS AND DOORS OF THREE STOREY BUNGLOW HOUSE

Prepared by: Ong Kent Yee

## ABSTRACT

---

The abstract for the final project are to study about measure quantity of windows and doors, and costing about three storey bungalow houses. Besides that, need to prepare a Bill of Quantities and Costing for windows and doors of three storey bungalow house. After that, also need to build a model and prepare poster about the literature review for windows and doors of three storey bungalow house. Besides that, able to prepare Bill of Quantities and build model as well as do the poster presentation. However, about material cost and rate of labor will affect the total cost for the project.

Costing is the most crucial element in a project. Pricing is related to costing, if the cost that the contractor will tender a price for the client so client will know the amount of money is going to be spent in this particular project and then the client is able to arrange and manage the finance.
