

HUMAN GOVERNANCE: THE LEVEL OF RELIGIOSITY ON ACADEMIC DISHONESTY

Prepared by: Sumberjav Batbayar

ABSTRACT

The purpose of this study is to examine the relationship between religiosity and academic dishonesty in students of Malaysian universities. The religiosity is divided into three levels such as intrinsic religiosity, extrinsic social religiosity, and extrinsic personal religiosity. The researcher administrated a questionnaire to 221 postgraduate and undergraduate students. The questionnaire includes general attitudes of academic dishonesty scale, and religious orientations scale. The result shows that intrinsic religiosity have a negative and significant relationship with academic dishonesty. Extrinsic social religiosity also has a positive and significant relationship with academic dishonesty. Unfortunately, extrinsic personal religiosity has a no significant relationship with academic dishonesty.
