

WAIVERS FOR SCOTTISH ACCOUNTING DEGREE PROGRAM

Petaling Jaya, Sun: Students at Inti College who opt for the twinning programme with University of Dundee, Scotland for a degree in accountancy, can obtain the ACCA qualification by sitting for only six out of the 14 required papers.

Students can also skip

the Foundation and Certificate stages of the Chartered Association of Certified Accountants (ACCA) examination and proceed directly to the Professional stage.

The University of Aberdeen is offering similar exemptions for its accounting programme.

Inti's public relations and marketing officer Jessie Kwan said the exemption is among the highest awarded for ACCA by British universities.

Together with Heriot-Watt University, these three universities make up Inti's Scottish Universities Pro-

gramme which offers courses in accountancy and business.

Students wishing to enter the programme must have a minimum of 2 credits in STPM or A' Level completion of the foundation programme.
