

Unitele signs MoA with Inti

UNIVERSITI Telekom (Unitele) recently signed a memorandum of agreement (MoA) to franchise its degree courses in Information Technology and Engineering to Inti College.

Five degree programmes namely Bachelor of Engineering in Electronics, Electrical and Computer Engineering and the Bachelor of Information Technology with emphasis on Information Systems Engineering and Software Engineering will be offered at Inti College.

Upon successful completion of the three-year programme at Inti, students will receive the Universiti Telekom degree.

Students enrolling for the programme will begin their academic year this month at Inti College's main campus in Bandar Baru Nilai. Built at a cost of RM150 million, the college is equipped with the latest teaching and learning facilities.

The School of Engineering and Technology at Inti College has well-equipped workshops and laboratories for Mechanical, Industrial, Civil, Chemical, Electronic and Electrical Engineering. The facilities include state-of-the-art computer simulation and the latest computer laboratory software packages.

The School of Computing and Information Technology has six laboratories equipped with sophisticated software and hardware. Students also have free access to Internet.

Students application closed recently. The entry requirements are Sijil Pelajaran Malaysia or 'O' Level or equivalent with five credits including English, Additional Maths and Physics and the Sijil Tinggi Persekolahan Malaysia or 'A' Level or equivalent with three principals including Mathematics and Physics. Applicants with pre-university qualifications were also invited to apply.
