

Vietnamese connection

A DELEGATION of 17 representatives from the Vietnamese College of Foreign Economic Relations, headed by its rector, Dr Nguyen Thi Hong Nguyet paid a visit to Inti College at its main campus in Bandar Baru Nilai recently.

The delegation, which was met by Inti College president Tan Yew Sing, discussed issues of mutual interest with emphasis on collaboration between both institutions.

Nguyen has expressed interest in Inti's English language programmes and future collaborations in the fields of business management, accounting

and computing.

Both parties are now in the process of finalising details on collaboration which will culminate in a signing of a Memorandum of Understanding.

Inti will work with the Vietnamese college in the recruitment of students from that country.

The College of Foreign Economic Relations is located in Ho Chi Minh City and offers specialised education courses in import-export business administration, business management, commercial accounting, restaurant-hotel business administration and petrol business administration.
