

Cans needed to build pyramid

TRYING to get into the Guinness Book of World Records, 12 students from Inti College Subang Jaya will attempt to build a freestanding pyramid structure of 30 x 30 cans.

Kelvin Yeow who is the leader of the "Malaysia Can" project, said the team wants to beat the previous record of 27 x 27 cans set by a group of Singaporean students. The team will attempt this feat this month.

The students need a total of 9,455 cans to build the structure and are hoping more students and members of the

public for more drink cans.

So, if you have any cans, pop them into the huge blue drums placed at the corners of the stage at the concourse area of Inti College Subang Jaya.

At the launching ceremony, Inti College principal Dr. Saw Sor Heoh praised the team for taking up the challenge, saying that they set an example to the other students.

During the launch, the team gave the audience a preview of what is to come by building a miniature pyramid of 13 x 13 cans.
