Students bring cheer to orphans

ELEVEN lecturers and 48 students from the English Improvement Programme 130 of the School of Languages and Liberal Arts, INTI College visited three orphanages in Kajang recently.

The orphanages were Rumah Faith, Shelter Home and Rumah Keluarga Kami.

The visit was an eye-opener for the students whose arrival were greeted by smiling faces.

The students organised various activities such as tele-matches, origami demonstration and sing-a-long sessions.

Cheng Yang, a student from China, said she was so moved by

the children's positive attitude that she looked forward to visiting them again.

"The visit has taught me to appreciate and value things in life. I consider myself very lucky to have had the opportunity to meet them," she said.

Yang said the visit would remain an enriching and unforgettable experience for the EIP students and more importantly, to the Academic School SOLLA.

"It is effort to give an extra edge to make the learning experience more enjoyable to students," she said.
