MOST times we are so caught up with our own lives that we forget those who are less fortunate.

Lucky for three orphanages in Kajang, Inti College Malaysia had them in mind on a recent goodwill outing.

A total of 11 lecturers and 48 students from Inti's School of Language and Liberal Arts (Solla) visited Rumah Faith, Shelter Home and Rumah Keluarga Kami.

The objective of the visit was to inculcate the spirit of sharing

and caring among staff and students and it turned out to be an eye-opener as the experience was a first for many of the students.

The English Improvement Programme 130 students played games with the children.

There were also an *origami* and sing-a-long sessions.

Cheng Yan, a student from China said: "The visit has taught me to appreciate and value things in life. I consider myself lucky to have had an opportunity to meet them."

The coordinators of the visit, Linda Tan and Ong Mei Lin hope the visit will be the start of many visits.
