

Inti receives blood donation award

Recognition for Inti ... Chua commends students and staff for donating a record 2,387 units of blood.

Inti College was presented with an award for being the third highest regular blood donor during the launching of World Health Day celebrations at the Putra World Trade Centre Kuala Lumpur. The college has donated 2,387 units of blood so far.

Vice-President of Students Services Division Margaret Ong received the award on behalf of the college from Health Minister Datuk Chua Jui Meng.

Chua said he was satisfied with the efforts by individuals and organisations in donating blood. He added that the country's present blood supply had risen by 30% compared to 1998.

Ong said the recognition given to INTI showed that its students have a caring attitude.

The blood donation drives at INTI had been organised through its Leo Club and Red Crescent Society at its main campus and Subang Jaya Campus.
