

College offers bursaries for its 10th anniversary

KUCHING, Sun. — INTI College Sarawak is commemorating its 10th year by offering bursaries in the form of tuition fee waivers of up to 25 per cent to students who enroll in its programmes for the semester beginning January 2001.

Its managing director William Tan said yesterday that students need only obtain five credits in their Sijil Pelajaran Malaysia examination to qualify for the incentive which would also benefit students continuing their programmes at the college.

"We are also doing this in appreciation of the overwhelming support the public has given us since October 1991," he said.

The college will be a hive of activity until October 2001 and among the many activities planned are charity drives and the official opening of the college.

INTI College started in Kuala Lumpur in 1986 to provide greater educational opportunities for Malaysians.

The INTI group of companies now has campuses in Kuala Lumpur, Bandar Baru Nilai, Sarawak, Sabah, Penang and Beijing.

The college is registered under the Education Act 1961.

All its programmes are approved by the Education Ministry.
