

Inti's brand of Open Day

Overall champs ... Hin Hua High School has good reason to rejoice.

In conjunction with its 15th anniversary celebration, Inti College Malaysia held an Open Day with a difference - two events, Sport Fest 2001 and Australian Universities Information Day were held concurrently.

The Sports Fest 2001 saw more than 600 secondary school students, mainly from Malacca, Selangor and Negeri Sembilan taking part in four sports competitions - basketball, volleyball, street soccer and swimming.

Participants battled their hearts out for the overall Champion Challenge Trophy but the day belonged to Hin Hua School in Klang. SMJK Chan Wa, Seremban and SMK (P) Methodist Klang clinched first and second places respectively.

Students at the event also attended various games organised by the college.

Inti president Tan Yew Sing noted with pleasure the fact that many secondary schools share the college's commitment to sports, saying it is a less formal but effective way means to educate young people.

As for the Australian Universities Information Day, it saw the participation of academic representatives from seven top-notch universities guiding students interested in pursuing Australian studies. The universities were University of Adelaide, University of New South Wales, University of Sydney, University of Tasmania, Queensland University of Technology, University of Wollongong and Swisburne University of Technology.
