Body art ... Face-and-body-painting were a hit at the Inti College annual American Day held at both its Nilai and Subang Jaya campuses recently. Various North American universities as well as the Malaysian American Commission on Educational Exchange (Macee) and the Canadian Education Centre took part in the event.

Seminars on "Study in Canada", "Study In USA", "Parents to Parents" talk, "Scholarship Talk", "US College Life Toolkit", and "How To Choose the Right University" proved useful for secondary school students who attended the open day.
