■ **FORMER-CHARTERED ACCOUNTANT** Karen Loo was named best overall student at the Summit International College's graduation ceremony.

Loo, who received a Montessori Early Childhood Education diploma, attributed her excellent results to her interest in the course.

"The period between one and six years old is the most important phase of a child's life and as parents, we have to give our best to our children at that tender age," says Loo, a parent herself.

The graduation ceremony comprised a joint ceremony for graduates of Summit and the MSC International College, both of which belong to the Prime Group of Colleges.

A total of 155 students received their diplomas in Montessori Childhood Education, industrial design, interior design and performing arts (theatre), among others.
