

Students bring cheer to home

By SIMON KHOO

SOME 25 Inti College students, from its main campus in Bandar Baru Nilai, brought cheer to residents of Desa Amal Jireh, Sungai Chua, when they visited the welfare home recently.

The visit, organised by the college's Christian Fellowship, was to encourage members to interact with society, especially the needy and the less fortunate.

Spokesman Bryan Chuah Jue Jun said they decided to pay the home a visit as part of the fellowship's contribution towards society.

He said there were a number of such homes, but decided on Desa Amal Jireh as it was less publicised.

"Our members decided to sacrifice their time one weekend with the residents, to motivate them into leading a promising life

and to let them know that there are people who care for them.

"We believe we can help make a difference in their lives and will like to see more students reach out to such homes," he said, adding that the homes' residents should not only be remembered during festive occasions.

The students cleaned and spruced up the home's compound and washed two vans that belonged to the home.

Later, the residents helped the students to cook. Later, they all had lunch together.

Chuah said the members enjoyed every moment they spent with the children and promised to return when they had the time.

Desa Amal Jireh has 85 children and seven senior citizens. For details, call 03-8736 4500, fax 03-8737 4451 or e-mail daj1@pd.jaring.my

Helping the Desa Amal Jireh children learn are students of Inti College in Bandar Baru Nilai.
