

■ INTICOLLEGE AND THE UNIVERSITY OF ADELAIDE, AUSTRALIA took their collaboration a step further by forging a Memorandum of Agreement recently to offer twinning degrees in engineering and commerce.

Students will now be able to do twinning engineering programmes on a 3+1 arrangement with Inti College Malaysia and on a 2+2 arrangement with Inti College Subang Jaya and Inti International College Penang.

The majors available are in electrical and electronic, information technology and telecommunications, computer systems, mechanical, mechatronics, civil and chemical engineering.

Twinning programme for commerce degrees will be offered on a 1 1/2 + 1 1/2 basis in accounting and corporate finance and on a 1+2 basis in marketing, management and international business.
