

From left to right, INTI students Tan Lai-Fong, Loo Li-Ting, Cherrilee Chen and Yap Shui-Chien, scored straight As for their A-Level exams last year.

Your potential of getting As for A-Level is higher at INTI.

Anyone having to choose a college for A-Level has to only look at the performance of INTI students last year to make a decision:

- 12% of INTI students scored straight As
- 80% of INTI's science students met the entry requirements for life science or engineering degree studies in reputable universities abroad
- 50% of INTI's science students qualified for medical degree studies in local medical colleges and universities abroad

Not surprisingly, these brilliant results are the consequence of the way we run our A-Level programme at INTI:

- All our lecturers are full-time and contractually bound to fulfill their responsibilities from start to finish
- Classes are also kept small to ensure a high degree of lecturer/student interaction
- Just before the exams start, our senior lecturers will conduct a FREE intensive workshop to build up the confidence of our students and prepare them well

Would you like a scholarship?

Every year, INTI awards an unlimited number of merit scholarships to students with a proven record of excellent achievement. In many cases, these provide as much as 100% tuition waivers. Why not apply today?

NEXT INTAKE
21 June 2004

COURSE COUNSELLING
29 May - 20 June '04

9:00am to 5:00pm
