

INTI's MBA students on a study tour in China.

## Empowering future business leaders

INTI International University awards the INTI's Master of Business Administration (MBA) dual award programme, offered in partnership with the University of Hertfordshire (UH).

A top business university in the United Kingdom, UH will award its popular Master's of Arts in Management Studies degree to students who successfully complete the INTI MBA programme.

INTI's MBA programme helps students develop a portfolio of key management competencies, including strategic financial, marketing and system analysis and decision making through an appreciation of global business challenges.

"Our programme exposes learners to simulated and real business problems and environments by applying project- and problem-based learning approaches. These empower students to be self-directed, motivated and independent learners," says Dr Jagdeep Singh, acting dean, Faculty of Business, Communications and Law of INTI International University.

International case studies are also part of the curriculum and students participate in overseas study tours and cross-cultural case discussions with overseas students through live video conferences in the classroom.

To encourage innovative learning, INTI's students have undertaken 180 innovative projects with 125 employers from various industries since 2011. Real employer projects were introduced in the classroom to help students develop problem solving, collaboration, communication and critical thinking skills.

"INTI offers a blended learning approach, incorporating lectures and innovative technologies that include online tools, multimedia content and the Blackboard's learning system to deliver highly accessible, user-focused learning platform that is engaging and intuitive for all users," says Dr Jagdeep.
