

STAR 2/01/2014 : Thursday / Pg. 7 (Education Guide) - News

INTI International College Subang bagged two coveted awards in the cluster-based category for general programmes and services at the MyQuest 2012/2013 Awards ceremony which recognises excellence among private colleges in Malaysia.

With over 26 years of experience in delivering quality international education to young graduates, INTI International College Subang (IICS) adds another feather to its cap for outstanding performance as an education institution.

One of the most respected and trusted names in the Malaysian private higher education industry, INTI is part of the Laureate International Universities network that spans 30 countries and online, with more than 75 accredited universities and 130 campuses.

It serves nearly 800,000 students globally.

Being part of the Laureate network means INTI provides access to global resources, best practices, teaching methods, international faculty and management tools that are truly world class.

The six-star cluster-based award for general programme recognises INTI International College Subang's outstanding efforts in delivering quality pre-university pathways.

This includes the American University Programme, which has seen the progression and transfer of thousands of young INTI graduates to leading American universities.

The second award is for INTI International College Subang's excellence in services – particularly for its Hospitality programmes, which are offered in collaboration with leading hospitality institutions in Australia and the United States

INTI shines above the rest

"This has been an exciting journey for us and we are pleased with this recognition which will spur us to strive harder.

"We want to lead in academic innovation and raise the bar in education excellence through our unique approach to learning that

empowers each student. We will continuously set new benchmarks in our efforts to ensure strong graduate outcomes," said INTI International College Subang's chief executive Tan Ling Ling.

MyQuest evaluations are carried out every two years to measure the strengths and performance of participating private colleges in Malaysia based on several categories.

Last year, over 200 private colleges in Malaysia were shortlisted and ranked in three main categories – college-based, cluster-based and international student readiness.

The six-star rating is given to institutions with outstanding performance in each category.

INTI's achievement will further enhance its mission to be the most international, innovative and individualised education provider.

It aims to champion change by reinventing the parameters of education in building dynamic leaders for the future.

INTI hopes its collaboration with leading industry and academic partners will meet the needs of today's employers and graduates.
